*This unique public / private partnership is evidence that government and private industry can work together to produce tangible results for a better environment and a more environmentally-conscious public. The White House Council on Environmental Quality strongly supports the CWRP and its partnership with federal, state and local government agencies through Coastal America as an effective vehicle to meet conservation goals and restore critical wetland and aquatic habitats.*

# The Corporate Wetlands Restoration Partnership

*Collaborative Efforts Yielding  
Tangible Results*

\*A complete list of CWRP partners is available online at [www.cwrrp.org](http://www.cwrrp.org)

## Working Together To Make a Difference

The Corporate Wetlands Restoration Partnership (CWRP) is an innovative public-private initiative aimed at restoring, preserving, enhancing and protecting aquatic habitats throughout the U.S. Bringing together corporations, federal and state agencies, non-governmental organizations and academia, the CWRP allows participants to contribute in a fundamental way to crucial projects involving America's coastal and inland wetlands and aquatic habitats and support educational programs for school children throughout the U.S. and internationally.

The CWRP is unique not only in its collaborative approach to solving the problems facing America's valuable water resources, but also in its ability to apply federal dollars to projects that improve the health of our coastlines, rivers, and waterways. Because company dollars are combined with governmental and other funds, the value of CWRP contributions is increased many-fold. A company's ability to leverage funds is one of many reasons the CWRP stands out in its conservation efforts. All contributions are fully tax deductible, as CWRP is a subcommittee of the Coastal America Foundation, an IRS recognized 501(c)3

## Corporate Contributions Support Important Projects

More than 300 corporate partners have contributed time, materials and money to facilitate selected projects. Since its inception in 1999, CWRP has received more than \$4 million in contributions and pledges of in-kind services from its corporate partners. These donations have aided in the preservation, restoration, enhancement and protection of more than 20,000 acres and 7,000 stream miles and numerous educational programs.

With the invaluable assistance of Coastal America, a partnership of federal agencies, the CWRP has expanded greatly from its first chapter in Massachusetts to include chapters across the United States, and piloted projects in Canada and Mexico.

Collaborating with federal, state, municipal and non-governmental partners, CWRP chapters fund projects including:

- **Marshlands**
- **Fish passages**
- **Dam removals**
- **Reefs and shorelines**
- **Species protection**
- **Education and outreach**
- **Cultural projects**

## Benefits of Participation

Participating companies are offered a unique opportunity to combine their contributions with federal and local dollars, making this one-of-a-kind effort truly effective in restoring, preserving, enhancing and protecting our nation's wetlands and aquatic habitats.

### Participants:

- *Are involved in tangible projects that yield critical environmental improvements.*
- *Support educational programs for school children and teachers.*
- *Multiply their contributions through matching funds.*
- *Instill employee pride and provide opportunities for employee involvement in CWRP projects.*
- *Enhance working relationships with government agencies and officials, conservation organizations, community groups and academia.*
- *Enjoy positive publicity from media coverage, awards and recognition events.*
- *Strengthen their corporate image as environmentally and socially conscious companies.*
